

Graphic Design Sample Work

All of the following you see in this portfolio have been designed or digitally recreated by me.

Logo Recreations

In the print/design industry you have to be able to reproduce logos and artwork to exacting specifications. Sometimes the customer gives me a business card for pre-press artwork. I have to recreate a vector version of each for production.

Here are just a few of the hundreds I have done. I use Coreldraw, Illustrator, Photoshop & Flexisign Pro for creating artwork.

Print Advertising Creations

I have designed everything from business cards to game tickets. Here is a sampling of various media creations.
